The senate and house leaders left the White House table imbued with the president's spirit of the necessity to pass the tariff bill. The Hughes debate was not discussed, Watson said. He exhorted the senate to act fast on the tariff, citing Mr. Hoover's

This is the Davenport plan, which would retain the present law but allow congress to veto changes made by the president on ecommendation of the tariff commission. The house tariff bill increased the presiden's power to adjust rates, but the senate adopted an amendment depriving him of all this power. Longworth added that this session will not pass much except the tariff, appropriation and prohibition transfer bills. This will leave most of the Hoover program unfinished.

The democrate went to work to lay the blame for the legislative tangle at the White House doorstep. Representative Byrns, Tennessee, democratic congressional committee head, and Mr. Hoover was responsible because he failed to stop it. Democratic Floor Leader Garner, Texas, charged that Mr. Hoover was responsible because he failed to stop it. Democratic Floor Leader Garner, Texas, charged that Mr. Hoover hasn't told republican leaders what he wants. "The titular party leader in the White House is either lacking in courage or the capacity to lead," Garner said. President Baiting.

Senator Harrison, democrat, Mississippi, jibed the president in the senate, dangled before the administration the possibility that Calvin Coolidge on his western trip is building fences for a presidential race against Mr. Hoover, and then sided with Representative Tilson in caustic criticism of the regular republicans' silence in the Hughes debate.

House leaders after Tilson's outburst against the Hughes silence and the lack of speed on the tariff, indicated they would not carry out their plan to recess the house until the senate concludes the tariff.

Republican senate leaders now hope to get the tariff passed by March 15. The appropriation bills, providing in the aggregate for nearly \$4,000,000,000,000,000,000, will be taken up immediately thereafter and passed in jig-time.

The senate did not noticeably speed up on the tariff. It raised the duty on zinc and refused to levy a 30 per cent duty on silver, which is now duty-free.

career with a profit of \$64,352,768 for the government and all but \$10,000 of its original capital of \$500,000,000 paid to the treasury.

The corporation ceased operation April 5, 1929, Eugene Meyer was chairman of the liquidation committee until he resigned from the federal farm loan board in May, 1929, and was succeeded by G. R. Cooksey, a member of the federal farm loan board.

The organization was formed by congress in 1918 and in 1921 was revived to continue its work in the post-war deflation period.

Smith Ends Play, Leaves for Home

PALM BEACH, Fla., Feb. 18.—(/?)
Former Governor Alfred L. Smith, of New York; Mrs. Smith and their son-in-law and daughter, Mr. and Mrs. Francis J. Ouillinan, left Palm Beach late today for New York after an extended stay in the resort. The party was aboard a private railroad car owned by William F. Kenney, a close friend of the former governor. gress.
Russell said that upon his appointment to the power commission seven months ago he was called by M. O. Leighton, a consulting engineer connected with the Electric Bond & Share Co., of New York. Leighton proceeded to tell Russell how to do his job and intimated that his appointment was pleasing to the power companies, Russell testified. King has been "too meticulous" in his dealing with the companies. Russell said Leighton told him. The engineer suggested various interviews with power company representatives but Russell objected.

The discord in the commission came to a head last August when Bonner recommended transfer of the accounting details of the commission to the war, interior and agriculture departments. The secretaries of these departments form the commission. Russell told the senate committee this proposal was ridiculous, since the departments had not trained accountants capable of doing the work.

Russell declared the Byllesby Company of Minnesota and Wisconsin paid \$140,000 to a man named Flynn, a Chicago attorney, in four years and that Flynn had done the cempany's lobbying in Washington.

"This money was charged with the actual cost of construction of the ment to the power commission seven months ago he was called by M. O.

that Flynn had done the cempany's lobbying in Washington.

"This money was charged with the actual cost of construction of the company's property," he said. "There's a company up in Pennsylvania that spent \$700,000 on lobbying."

Russell said the Niagara Falls Power Company, capitalized at \$77,000,000, had included in this \$30,000,000 as the value to them of the use of water which they were licensed to use by the government. It was pointed out by Senator Wagner, democrat, New York, that if this capitalization were used in rate making the practical doubling of rates on a fictitious entry was easily apparent.

Postponement of the wedding of

his office. He told them the government desired that the incident should not be discussed.

He said the government was investigating the antecedents of Count Von Hochberg in Germany, and was seeking further information about him. If the Rumanian government found anything reflecting dishonor upon the court, it would intervene and advise against the maintenance of the engagement.

against the maintenance of the engagement.

Royal circles have maintained strict secrecy about the engagement, but an air of constraint was noted at the palace. It is generally expected that an announcement annuling the engagement will be made when Queen Marie and the princess have returned from a trip to Egypt and the eastern Mediterranean.

Princess Ileana was the only member of the royal family to accompany Count Von Hochberg to the station when he departed for London. The newspapers today commented upon the coldness between the young couple.

Taxes Are Contested

SEVIERVILLE, Tenn., Feb. 18.—
(P)—Tennesse's city, county and state property tax laws were challenged here today through a suit filed in chancery court by the First National Bank of Sevierville. The suit would restrain the collection of the bank's taxes for 1929, asserting the levies are unconstituional and discriminatory.

the levies are unconstituional and discriminacry.

Norman B. Morrell, former state senator and one of the Knoxville attorneys who prepared the bill, said national banks throughout the state had approved the suit and were directly interested in the outcome.

The bill complained that stocks and real estate of national banks are taxed for their full value, where it asserted many other securities—it referred specifically to building and loan association bonds—are taxed only for the revenue derived. Morrell said bank taxes sometimes were 23 times the amount of other stocks or bond levies.

To Execute Woman

Court Declares

WASHINGTON, Feb. 18.—(UN) A picture of discord within the federal power commission which allegedly resulted in a situation enabling power companies to make fictitious entries for capitalization figures and make the public pay for their lobbying activities was drawn for the senate interstate commerce committee today. Charles A. Russell, blunt westerner, was the witness. He will be followed tomorrow by William V. King, general counsel for the commission. Russell and King, according to the former's testimony, were blocked in their efforts to rebuke the power companies and F. E. Bonner, executive secretary of the commission, was represented as the one responsible for this state of enforced inertia.

To combat this situation Senator Couzens, republican, Michigan, chairman of the committee, late today introduced a bill providing for creation of a power commission composed of three full-time commissioners instead of three cabinet officers as at present.

The commissioners under the Couzens bill would serve six-year terms,

The commissioners under the Couzens bill would serve six-year terms, be paid \$10,000 a year, and would be absolutely divorced from any connection with power companies. The bill is in lipe with recommendations of President Hoover's message to congress.

NEW ORLEANS, Feb. 18.—(P)—Police today were looking for a maniac at large armed with a high-powered rifle as the man who late yesterday picked Joseph Catalanotto, 21-year-old driver, out of his passing truck at Greenwood cemetery.

Thorne declared that a rifle bullet missed his head by just a few inches. It passed through a rear side window on his automobile, shattering the glass.

BERLIN, Feb. 18.—(P)—It took the New York Stock Evchange crash of last October to make Fritz Kreisler, world famed violinist, really understand the American people.

"I thought I knew America and the American people as I know myself," Kreisler said on returning from his American and western European concert tour. "For 35 years I have been roving over the United States as artist. Yet it was not until the stock exchange crash that I really understand what a wonderful, virile race the Americans are.

Mr. Graham spoke with foreboding of what might result if the conference failed to reduce rising tariff walls. If the nations could not agree to stabilize customs duties, he said, some of those countries which have been champions of free trade might begin raising tariff walls themselves.

R. Schmidt, German minister of economics, welcomed the move for stabilization and reductions of European tariffs, but felt that prospects for concerted action in that direction were not bright at present.

Tariff Conference

GENEVA, Feb. 18.—(P)—The fall of the Tardieu government in France cast a chill this afternoon over the tariff truce conference, which seeks to destroy barriers to international trade.

Today's session ended early as the first two French delegates returned to Paris, leaving representation of their country to subordinates.

The speech this morning of William Graham, president of the British board of trade, left the impression that he spoke with strong consciousness of the current agitation in England for tariff protection of British industry.

Superintendent in Radio
Address.

An urgent plea for more funds for pay of teachers and to supply materials in the state's drive against illiteracy, was made Tuesday afternoon to the people of Georgia over radio station WSB by State Superintendent of Schools Dr. M. L. Duggan.

The superintendent told of the need of financial aid to the campaign that Georgia might have a higher rating in the 1930 census, which is soon to be started. Georgia, he said, has more than 66,000 native white illiteracts according to the 1920 census.

Georgia stands her high percentage of illiteracy or close to the bottom of the column if named in the order of low percentages of illiteracy. Commission Asks Injunction On Sand and Gravel Rates

Court Directed Against Interstate Commerce Commission and Roads.

Injunction against promulgation of a new schedule of rates on road-building materials, contemplated to become effective March 3, was asked in a petition filed in United States district court here Tuesday by the Georgia public service commission.

The petition was directed against the interstate commerce commission and all railroads operating within the state of Georgia.

James A. Perry, chairman of the public service commission, said the Georgia body four years ago attempted a revision of intrastate rates on sand, gravel and other materials used in the construction of highways, at which time the interstate commission intervened and prevented the revision. Mr. Perry explained that existing intrastate rates on these materials are higher than interstate rates from states adjacent to Georgia.

The petition of the Georgia body contends that the conditions existing at the time the former attempt at revision was made were virtually the same as will prevail when the new schedule takes effect March 3. Mt. Perry said it was the view of the Georgia commission that the new schedule takes effect March 3. Mt. Perry said it was the view of the Georgia commission that the new schedule will be "prejudicial" to interests of this state.

The petition, filed in the court for the northern district of Georgia, will be heard on a date to be set by Judges Samuel H. Sibley for hearing on the question of an interlocutory injunction, pending final adjudication in the United States supreme court. Judge Sibley today was in New Orleans engaged in the hearing of an either case.

The chairman declared this to be one of the most important questions in which the commission has ever been interested, describing it as nation-wide in its significance.

While no date has been set definitely, Mr. Perry said, February 27 has been agreed upon tentatively for the hearing, which will be before Judge Sibley.

will go to New Orleans today to defend an action brought by Southern Motorways, Inc., against the commission and the comptroller general.

The petition was brought in federal court and is to be tried before a bench of three judges. It asks an injunction against the enforcement of the hearing, which will be before Judge Sibley.

injunction against the enforcement of the Georgia motor carriers' act, which placed the motor carriers under the jurisdiction of the public service commission. The petition challenged the constitutionality of the act and questioned the state's right to interfere with interstate commerce.

Those going to New Orleans include Sumner J. Smith, Jr., counsel for the public service commission; T. R. Gress, assistant attorney general, and Robert B. Troutman, special counsel for the comptroller general.

The only defendants in the suit brought by the actress, who alleged that the play was stolen from her manuscript, "Mary Magdalene," are Will H. Haps and the Producers' Distributing Corporation, of which Hays is said to be president. Neither Mr. De Mille nor Jeanie MacPherson, accredited author of "King of Kings," had been served.

Miss Suratt demands an accounting. She testified that in 1924 she had submitted her manuscript to Mr. Hays and that in 1925 Mr. De Mille received it and returned it with word that he could not use it.

Later, she testified, when she heard of the projected distribution of "King of Kings," she called on Mr. Hays, whom she quoted as saying, "Why, I warned them they should not treat you like that."

Had he done that, with the hardboiled firmness of a Cleveland and the vigor of a Roosevelt, he would have long ago signed the sort of tariff bill he wanted, and maybe yet wants, and the country would have been now settled upon known tariff schedules with business going

New Soviet

The soviet union will begin to count time from the date of the bolshevik revolution if the government accepts the plan of a commission appointed to work out a new calendar conforming to the new continuous working new calendar. Another little trick borrowed from the French revolution and practised generally in Italy, where they date official documents from the famous blackshirt march on Rome.

A commemorative tablet to Princip, the Serb student who fired that shot which rang around the world, has been unveiled in Serajevo. No official representatives of the authorities, or any unions or public bodies took part, and no public speeches or demonstrations were permitted. The house is the one in Serajevo where Princip secretly lived before the murder. The Serbs are very proud, of Gavrily Princip. They think of him as a hero and martyr who liberated them from the Austro-Hungarian yoke. It is said that the present Jugo-Slav government, which is founded on nationalism, cannot be ignorant of such feelings. But as Jugo-Slavia is seeking money in England and the United States, the Belgrade government cannot possibly ignore public opinion there against a mureder who unleashed the dogs of war. Therefore the programme of the Princip celebrations was considerably modified, and given the aspect of a private affair. (Copyright, 1930, for The Constitution.)

How dangerous is Mexican credit? A canvass of firms doing business in Mexico over the last five of ten years revealed that the average losses on credit were in the neighborhood of one-fifth of one per cent.

Julius Klein, assistant United States seeretary of commerce, says a checkup of several hundred firms in Ohio, doing business in different parts of the world, abroad, on credit, revealed that 60 per cent of those companies had much lower losses abroad than within the United States. "An additional 30 per cent had just about the same break abroad as there," he said. "And the remaining the per cent suffered more abroad than they did here, and ascribed that they did not know much about the business."

ALL BUSINESS BETTER. SAYS JULIUS BARNES

night that "a careful planning and co-operation can improve buying power still further and can help to relieve individual hardship."

"The danger of a long depression appears fairly over," he said, adding "This improvement became possible because of the collective common sense, the courage and enterprise of all kinds of Americans, in business and out."

"We, however," he continued, "need to continue to apply these qualities, especially for the next few weeks."

Barnes said that large business interests, the railroads, the public utilities, the steel industry and others, had pushed ahead their construction plans and generally were following the suggestions made at the recent conference called by President Hoover.

Homeowners, he said, "can help by doing needed work now, so that men temporarily idle can be carried over until larger programs can be started." "Any wide unemployment immediately reacts upon business, and the modern businessman, knowing this, is as anxious as the worker to keep unemployment at a minimum," he added.

\$1,000,000 Highway Warrant Is Drawn

Governor L. G. Hardman announced Tuesday that a warrant of \$1,000,000 had been drawn, payable to the state highway board, and that the amount had been paid.

At the offices of the board it was indicated that the money would be used to retire small obligations scattered over the state, on which there are balances due totaling about \$500.000. The remainder of the money, it was said, will go to the counties on money due them.

The \$1,000,000 became available Monday when George H. Carswell, secretary of state and motor vehicle commissioner, deposited \$1,200,000 of automobile license tag revenues, allocated to the highway board, in the state treasury. A Powerful Anti-acid—yet Safe

Lord Beaverbrook To Organ ize Empire Free Trade

LONDON, Feb. 18.—(P)—A new British political party was the hope today of Lord Beaverbrook, Canadian peer and newspaper owner, whose campaign for empire free trade has been rejected by the conservative, liberal and labor organizations. Lord Beaverbrook hopes for immediate membership of "a hundred thousand men and women" who have enrolled as founder-members of the empire free trade crusade.

"It is reseless to look for new

men and women who have enrolled as founder-members of the empire free trade crusade.

"It is useless to look for new wine out of old bottles," Lord Beaverbrook said in a manifesto issued yesterday. "Events of the last few weeks have made it plain that no one of the existing parties is big enough to embrace the doctrine of empire free trade in its entirety," and no one party has been big enough "to find room within its tabernacles for the multitude of men and women of all political parties believing as I and my colleagues believe."

He said that he and his supporters had therefore declined to launch a new party, calling it the united empire party, since there was no hope in "the old parties, slaves to tradition and impervious to new ideas."

Lord Beaverbrook's newspaper, the Daily Express, assisted by the Daily Mail, have been waging the "empire free trade campaign" for weeks past. Its program has declared for "a sane industrial policy, development of the resources of the empire by British brains, and money for the expansion of British trade and for the increase of British employment."

Meanwhile a possibly significant development has taken place in the ranks of the labor party where Prime Minister MacDonald yesterday resigned from the independent labor party, left wing of the British labor movement. No reason was stated for the action, but a friend of the prime minister said: "The reason must be obvious to everyone."

Relations between the labor government and its left wing members have been strained for months, with the

Has Written to Governor.

In a statement, Mr. Gillen said: "I have today written to Governor Hardman requesting that a special session be called to rectify the situation with reference to veterans' pensions. I think reasonable pay for these veterans has been too long delayed as it is. Now that funds can be made available by legislation already in force they should be given whatever comforts a few paltry dollars will give them in their remaining few days of

them in their remaining few days of life. I have talked to some 30 representatives over the state in the past two weeks and they as well as myself will gladly attend a special session without per diem or mileage."

"The legislature provided an increase in pensions on the assurance from proponents of the bill that the increase in tobacco tax collections would provide sufficient funds. I do not agree with the technical objection made by the attorney general and believe it the duty of the state to make monthly payments under the new law if state funds are sufficient. I am inclined to believe that insufficiency of state funds rather than a technical objection to the appropriation measure is the cause of the trouble and therefore do not think at this time that special session should be called. 'Petrel Follies' Is Typical Musical Revue of Collegians

Just a typical college production—that's the Petrel Follies, produced and presented by the Oglethorpe Players and orchestra at the Erlanger theater Tuesday. A second performance is to be given tonight so all of you who missed it Tuesday are given a second opportunity.

A revue with 22 features, including comedy skits, songs, dances and quite elaborate stage productions, comprise the show, Laughing their way through are the youngsters from the Peachtree road institution who are quite evidently having one of the biggest times of their lives in the venture. And perhaps it is that enthusiastic enjoyment that jumps over the footlights and, spreading its contagion over the audience, just makes everybody happy, even when a few of those mishaps that

The performance as a whole is a little long. To be freak the boys and girls who course. It would take too much space to list the names of all the boys and girls who take part in thes how. Suffice to say that they all have a gorgeous time and romp through with an aplomb worthy of veterans.

Two, however, must be mentioned. If there is a team in the entire personnel that gives promise of professional value, it is the dancing team and her partner, Mr. Raines, are truly clever in their Bowery number. There are numerous choruses and dance ensembles, the best trained of dance ensembles, the best trained of them all being the Gold and Black number by Ruth Brooke and the girl chorus. And the opening number.

At the close of the first half there are a couple of fashion shows that proved that modern styles can be really beautiful, when displayed on as beautiful and handsong girls and boys as Oglethorpe can boast. The girls wore costumes furnished by J. P. Allen & Company, while the boys' at the intermission, were splendidly done and the entire case

In "The Virginian," Paramount's

all-talking outdoor classic, which

shows at the Cameo from Wednesday

through the rest of the week, Gary

Cooper is cast in the title role. Wal-

ter Huston as "Trampas" is the villain. Richard Arlen is "Steve," the

wayward cow-puncher, and Mary Brian is "Molly Wood," the school-

ma'am.

"The Virginian," a novel of the 80s, gained quick fame as the greatest American novel ever published and to this day it is held to be one of the

great classics of literature. It brought universal renown to its author, Owen Wister. A few years later Wister and Kirk La Shelle transcribed the book into a play of the same name. Dustin Farnum created the role of the Virginian on the stage and since that time other actors have achieved widespread fame in the same role.

The handsome Gary Cooper, with his winning drawl and tall, rangy physique, is admirably cast as the hero. Huston is sensational as the villain. It is a triumph of talking pictures that such remarkable talent can be brought to show-goers.

Something new in theatrical entertainment, something that is expected to prove the "come back," of the flesh and blood stage in Atlanta, has been arranged for the Erlanger theater.

Beginning March 10, Atlantans will have for their delectation an organization known as the "Erlanger Theater Players," a producing company which will bring to this city the greatest successes of the legitimate stage in New York and Chicago. And the remarkable part of the project is that prices for seats have been set at such a low schedule that they compare favorably with those charged for any type of theatrical entertainment. A top night price of 75 cents has been arranged, scaling down to 50, 35 or 25 cents, while matince prices—on Wednesday. Thursday and Saturday—will be 60 and 25 cents.

These prices, Manager Lewis Haase, of the Erlanger, explained Tuesday, have been arranged to meet peculiar mate stage which, of recent years, seems to be fading.

Venable made his statement on cross-examination by Bart Riley, attorney for Courtney. The former prohibition official is being tried in federal court for the second time on charges of conspiracy to violate national prohibition laws.

The witness testified that he had signed an affidavit presented to him by W. J. Kelly, government agent, because he was afraid of the agent. The latter, he said, had threatened to send him to the penitentiary unless he made the sworn statement.

The affidavit, it was brought out in court, stated that Venable, admittedly a Miami liquor dealer for ten years, had paid a sum of money each month to Courtney for protection.

Under direct examination, Venable testified that he paid \$300 a month for a year to Courtney after he had lost \$100,000 worth of liquor due to Courtney's raids. On cross-examination attempt was made to break down

Dependable! COAL Economical!

Before You Invest in Other Forms of Fuel Check Up on Comparative Costs

Why be in a hurry to rush into an investment you may regret? Spring soon will be here. You'll have all summer to check up on what gas heating will cost you.

To convert your coal-burning equipment to use with gas costs money. Experience in other cities proves that such equipment is expensive to operate, and many types are wholly unsatisfactory. But once installed, you must use them or throw them away.

"Salesmen's unauthorized talk" with vague oral "guarantees" will not keep your gas bill down.

Gas has its uses---but in Atlanta, dependent upon 400 miles of pipe line --- it cannot compare with coal for SAFETY --- ECONOMY ---DEPENDABILITY.

In justice to yourself, make a thorough investigation before you place your reliance upon gas for next winter's health and comfort.

Do You Want to Multiply Your Heat Bill By Three?

Combustion engineers, who have studied all forms of heating, know that heat is simply a matter of "heat units" and equipment.

A thousand cubic feet of natural gas, it is asserted, contains a little less than 1,000,000 heat units. A ton of good average coal contains 28,000,000 heat units. It thus requires 28,000 cubic feet of gas to equal One Ton of coal.

The ton of coal will cost, on an average, Seven Dollars. The 28,000 cubic feet of gas, at 75 cents per thousand, will cost Twenty-One Dollars.

These comparisons apply to the same conditions of house construction and heating equipment.

You are not especially interested in what gas heating might cost in an "ideal house" under most favorable conditions. You want to know what heating in YOUR home will cost-and whether the fuel supply will be ready for your use every day in the winter, no matter how suddenly the cold wave may come.

Ordinary business judgment suggests that you investigate before investing.

This advertisement is a frank movement by Atlanta coal dealers to protect their own business. But at the same time it is intended to protect their customers from assuming an increased living cost without full knowledge of the facts. Ask your coal dealer. He will show you figures which cannot be disputed.

Associated Press Market Editor. CHICAGO, Feb. 18.—(P)—Friends of higher prices regained their grip today after wheat, corn, oats and dye had all suffered knockdowns to the lowest level yet this season. Word that 1,500,000 bushels of Canadian wheat had been purchased today for shipment to Europe, the largest

amount taken from North America in a long while, had much to do with bringing about the price rallies. Brisk buying of Chicago wheat future deliveries was also done, many traders taking hold because of confidence in ability of the federal farm board's stabilization measures to offset the results of a temporary apparent world surplus of wheat.

Chicago closing quotations on wheat today, 1-2 to 7-8 cents a bushel lower—than yesterday's finish. Cornclosed 5-8 to 1 cent up; oats ranging from 1-8 cent decline to 1-2 cent gain, and provisions showing 5 to 17 cents setback.

Headlong rushes to sell wheat and other grain were witnessed here when trading began. The general collapse of cereals to the lowest prices both of the day and the entire season quickly ensued, the main influence for the moment being knowledge that wheat quotations in Argentina and Great Britain had fallen overnight much more than was looked for. Inferences were drawn that Argentina and Canada in particular were in a struggle for whatever export business was available, and that Europeon countries were seeking to obtain further advantages from fast widening competition.

18 Atchlant
18 Atc NEW YORK, Feb. 18 .- (A)-A renewal of yesterday's selling movement was reflected by early declines in the cotton market today but the losses were recovered with May contracts selling up from 15.57 to 15.81 and closing at 15.78, compared with 15.79 at the close of the previous day. Offerings were comparatively light after the carly selling had been absorbed and the market responded to trade buying and covering. The final tone was very steady with prices net 2 points higher to 2 points lower.

The opening was barely steady at a decline of 15 to 19 points under a continuation of the selling which had been in evidence during the pre-vious day and which seemed to find additional encouragement in the vious day and which seemed to find additional encouragement in the easier showing of Liverpool and Bombay. There was some trade buying and covering but it was readily supplied with active months soon showing net losses of 20 to 24 points. This carried the price of March contracts off to 15.32 and October to 15.93, making declines of about 60 points or \$3 per bale from the high prices reached on the advance of last week. Offerings then tapered off sufficiently to suggest that the scattering long interest had been pretty well liquidated, and the market turned steadier.

38 364 364 1152 1144 1144 1172 117 1174

Comparative buying increased on setbacks, and covering became more active in the last hour. March sold up to 15.54 and October to 16.18, making net advances of 1 to 3 points on the active months. Closing quotations were a point or two off from the best under realizing.

The opening decline was promoted by weakness in the wheat market, and cotton seemed to improve when the

weakness in the wheat market, and cotton seemed to improve when the wheat market rallied later in the day. Cotton traders are watching the wheat market closely and seem more than ordinarily sensitive to the fluctuations in grain. Switching from near to late months continued a feature of the trading in cotton, but there was not much change in the differences between months.

SPOT RALLIES LATE AT NEW ORLEANS.

AT NEW ORLEANS.

NEW ORLEANS, Feb. 18.—(49)—
Shorts covering in an oversold market and advances in wheat and stocks were responsible for a late rally in the cotton market today after prices had sold off over \$1 a bale under liquidation. All of the early loss was recovered and last prices were practically unchanged from yesterday's close. May contracts rallied from 15.30 to 15.58, and closed 1 point under the latter figure for a net gain of 2 points. The general market closed steady, net 2 points up to 2 down.

Liverpool cables were considerably lower than due and the market here opened easy in sympathy. Initial transactions showed declines of 17 to 19 points, and prices continued downward after the start under selling promoted by the poor cables and rather liberal liquidation. Before noon March traded to 15.05, May to 15.30 and Juy 13.53, or 24 to 25 points under the previous close.

During the early afternoon the market was quiet but steady and prices gradually improved, recovering about half the decline. In late trading demand became more aggressive, due to the oversold condition of the market and covering by shorts as well as trade buying in response to the firmness of wheat and stocks.

At the highest, reached just before the close, March traded at 15.30, May 15.58 and July 15.79, or 25 to 28 points above the early lows. Last prices were at or near the top, but practically unchanged for the day.

Report Net Earnings NEW YORK, Feb. 18 .- (A)-The

Baldwin Locomotive Works, in its annual report published today, shows net profit for 1929 of \$2,300,462, equal after preferred dividends, to \$1.07 per common share. This compares with net of only \$479,000 in 1928, which left a deficit after preferred dividends of \$1.09 a common share, calculated ton the present capitalization.

The Reading Company reported net profits of \$15.508,741, equal to \$9.98 a share in 1928, as contrasted with \$15,090,690, or \$8.78 a share in the

\$15,090,690, or \$8.78 a share in the preceding year.

Lehn & Fink Products Co., manufacturers and distributors of toothpaste, cosmestics, etc., reports neterarnings of \$1.721,608, equal to \$4.10 a share for 1929, as against \$1,906,209, or \$4.59 a share in 1928.

Simmons Company reports net earnings for 1929 of \$4,695,572, equal to \$4.69 per common share in 1,100,000 shares, contrasted with net of \$4,275,370 for 1928, or \$3.89 per share.

Sugar.

NEW YORK, Feb. 18.—Raw sugar was unchanged today. Sales were confirmed as of late yesterday, or about 50,000 bags of Porto Rican due early next month to local refiners at 3.55 delivered. The Cuban price was held at 3.83 by the committee.

Price changes in raw futures were narrow and irregular, but the undertone in the main was steadler due principally to reports that British refiners were showing increased interest in Cuba raws, and the smaller production figures in Cuba. The market opened unchanged to 1 point higher on covering and some outside buying, but in the late forenoon offerings increased and prices reacted with new crop deliveries selling 1 point below the previous close. This selling was attributed to reports that at a meeting in Cuba yeared, and the market railled again with final prices net unchanged to 2 points higher.

The production in Cuba for the first

The economic value

of Investment Companies

NVESTMENT companies such as L those in the American Founders group must justify their existence by achieving better-than-average results in periods of depression as well as in

times of inflation.

The funds contributed by the debenture owners and shareholders are invested and managed with a view to obtaining the highest income consistent with safety-to achieve in "good times" above the average yield and appreciation, and in "bad times" to experience less than an average shrinkage in earnings and market values.

A high average rate of gross earnings of all the five companies in the American Founders group, has been maintained since the first was formed in 1921. Interest and dividends have provided the basic income,

while profits from sale of investments have been greater in some years than in others. In 1929 income from the latter source was unusually large.

From the total income the expenses, taxes and debenture interest are paid, reserves and surplus are built up and dividends are distributed to the stockholders. This unified management of the combined funds of many is devised to afford greater safety and income than the average man obtains through his individual operations.

American Founders Corporation, now controlling the other four companies, has consolidated resources exceeding \$200,000,000. Copies of the consolidated annual report for the fiscal year 1929 may be obtained from bankers and security dealers or from Founders General Corporation, 5.0 Pine Street, New York City.

Your Income Tax x collected by the United States vernment. Who pays it; why, here, how and when.

To obtain a deduction for traveling expenses, which form an important item in the returns of many taxpayers, certain regulations must be observed. The taxpayer is required to attach to his return a statement showing the nature of business in which engaged, number of days away from home during taxable year on account of business, total amount of expenses incidental to meals and lodging while absent from home on business, and total amount of "other expenses incidental to travel and claimed as deduction." Among the "other expenses" are tips, which are held to be a part of traveling expenses, provided they are reasonable in amount. Traveling expenses are deductible only when the trip is on business. They are limited to such expenses as are reasonable and necessary in the conduct of the business and directly attributable to it. Examples are payment for the use of a sample room or the hire of vehicles in visiting customers.

This splendid during the early part of the day, Steel common swung back into the position of leadership with the approach of the noon hour. Heavy buying was resumed in the old line leader coincident with reports that the corporation's mills are now turning £1.85 percent of capacity contrasted with \$50 per cent a fortnight ago. True this time last year the mills were turning close to 90 per cent of capacity but still the extent of the present recovery from the November-December Iull is highly inspiring to say the least. Steel's advance carried into new high ground for the movement as the final hour got under way, this demonstration giving the general market a fillip on the buying side.

Perhaps the only group in which lever was evidence of real liquidation during the day was the petroleum shares. Notwithstanding all that has been done to put a better face on conditions in that industry the oil shares have never been really popular with the trading public in recent years. It is generally recognized to the semination of the pressure of the same period of 1928.

Aviation Issues Develop With Organized Support

BY STANLEY W. PRENOSIL, Associated Press Financial Editor. NEW YORK, Feb. 18.—(P)—Stock orices made further recovery in totay's curb market, although a late elling movement cut down or wiped ut many of the early gains, and left losing prices irregular. Buying orers were distributed over a fairly road list, with the aviation issues iving one of the best demonstrations f group strength, presumably because of organized support that usually appears in this group at this eason of the year in anticipation of odd spring business.

Utilities, the demand for which has een revived by rumors of new condidations and alignments in the innustry, encountered heavy realizing fiter an early outburst of strength. Hectric Bond & Share closed only ractionally higher at 100 1-2, after aving sold more than a point above in showed a net loss of 1 3-4 at 35 1-4 after having touched 141 3-8, forthern States Power A and Unital Light & Power convertible precited advanced about 2 points each and Central States convertible precited advanced about 2 points each and Central States convertible precited jumped 27 points on a few lies.

Irving Air Chute responded to permings report by moving up to a new loss of 30 a share for 1929, closed with net gains of 4 3-8 and 1 3-4, respectively, after reaching new high ground for the year. Aluminum Company of America broke 20 points in odd-lot transactions on selling inspired by the agitation for a cut in aluminum duties, but recovered all but 5 points of its loss. General Baking common, Republic Steed (new), Todd Shipyard, Superheater and United Chemical all recorded substantial gains.

Interest in the investment trust, holding and trading corporation group centered largely in the National Investors issues, all of which attained new peak prices for the year, although the gains were held to fractions.

Oils were sluggish on reports of a further increase in crude production, although with the exception of Humble, Standard Oil of Chio preferred, which lost about a point each. The net recessions were held

The following information is summarized by Mr. H. C. Orton, President of the Corporation:

Business and Properties: Central States Power & Light Corporation furnishes electric light and power, and/or gas and/or other public utility services to 128 cities and communities located in the States of Iowa, Kentucky, Louisiana, Minnesota, Mississippi, Oklahoma and Texas. Through subsidiaries, controlled by ownership of more than 99% of all outstanding stocks, it also serves 62 communities in the States of Alabama, Missouri, North Dakota and in New Brunswick, Canada. The combined annual electric output is about 28,000,000 kwh., the electric properties including 7 steam electric generating stations, 8 hydro-electric generating stations, and 1,397 miles of electric transmission lines. Total annual sales of natural gas approximate 15,500,000,000 cubic feet.

In connection with the present financing the Corporation is acquiring Canada Electric Company, Limited and The Eastern Electric and Development Company, Limited, supplying electric light and power in Nova Scotia and New Brunswick, Canada, and directly and/or through a subsidiary the properties of Western Counties Gas Company and the gas property of The Rubana Oil Company in Oklahoma.

Capitalization: Upon completion of the present financing the Corporation will have outstanding \$13,500,000 First Mortgage and First Lien Gold Bonds, $5\frac{1}{2}\%$ Series due 1953 (including this issue), followed by 80,000 shares of \$7 Dividend Preferred Stock of no par value, and 40,600 shares of Common Stock of no par value. The issuance of additional bonds is restricted by provisions of the Mortgage.

Earnings: The consolidated condensed statement of revenue and expense for the twelve months ended November 30, 1929, of Central States Power & Light Corporation and subsidiary and controlled companies, including companies and properties being acquired as above stated, shows gross earnings of \$4,658,-707 and net earnings (before interest, reserves, etc.) of \$2,053,936. Annual interest requirements on \$13,500,000 First Mortgage and First Lien Gold Bonds, $5\frac{1}{2}\%$ Series, due 1953 (including this issue), amount to \$742,500. Net earnings (before interest, reserves, etc.) were thus equivalent to over two and three quarters times annual interest requirements.

Security: The First Mortgage and First Lien Gold Bonds are secured, in the opinion of counsel, by a direct first mortgage on fixed public utility properties of the Corporation now owned in Iowa, Kentucky, Louisiana, Minnesota, Mississippi, Oklahoma and Texas, and by pledge of all outstanding bonds and more than 99% of all outstanding capital stocks of subsidiaries owning properties in Alabama, Missouri, North Dakota and in Canada, all as more fully described in the me

The properties owned by the Corporation and its subsidiaries have been appraised by independent engineers, on the basis of cost to reproduce new, less physical depreciation, plus an allowance for "going concern value," at more than \$21,000,000. Adding to this the value of the properties now being acquired, likewise, appraised by independent engineers on the same basis, the total will be in excess of \$24,000,000.

The above Bonds are offered for delivery when, as and if issued and received by us and subject to approval of all legal matters by counsel, Messrs. Rushmore, Bisbee & Stern, New York City, for the Bankers, and Messrs. Matthews & Koegel, Chicago, for the Corporation. It is expected that Temporary Bonds or Interim Receipts will be available for delivery on or about March 3, 1930.

The foregoing is subject to the more complete information contained in the offering circular, copies of which may be had on request.

Dr. Baker Speaks To Jewish Women.

To Jewish Women.

Dr. Woolford B. Baker, professor of biology at Emory university, addressed the Council of Jewish Women Monday on adult education, which he defined as adult intellectual activity. Dr. Baker emphasized that this phase of education cannot be separated from the educational field as a whole, since it affects the child through correlation of his home environment with his school activities. The change in adult education within the last 15 years has resulted in the contact of parent and teacher through P.-T. A. work, lecture, correspondence and extension courses for parents. The child in turn demands individualization in training which it is the problem of the teacher to cooperate in working out with the parent. is the problem of the teacher to cooperate in working out with the parent. Horace Russell, president of the Atlanta Chamber of Commerce, spoke on what the Chamber of Commerce is, what it has done toward the upbuilding of Atlanta, and the necessity of such a body to the city. In speaking of the work of the women's division Mr. Russell stated he thought the division had a particular opportunity in its welcome stranger work and suggested that this work be followed up actively during the year. In his remarks regarding the 1930 membership drive which is starting in the division, Mr. Russell said that the main trouble with women in business, in his opinion, was that they paid too close attention to their particular jobs at the expense of outside contacts and work that would give them a broader viewthem being his poem that was award-

CANITARY comfort is a thing I that can't be determined until you have actually worn a sanitary pad. Often there is a deceptive, merely surface softness that becomes chafing stiffness after a few hours. But with Kotex you are comfortable — always. And this is why.

Kotex is fashioned of a most unusual absorbent, known as Cellucotton absorbent wadding. It is not cotton . . . but a cellulose product which, for sanitary purposes, performs the same function as the softest cotton—with 5

Kotex absorbent has largely replaced surgical cotton in 85% of our leading hospitals today. Certainly, no approval could be more important to a woman than this.

Within the past few years, Korex scientists have skilfully perfected certain details that mean a great deal to any woman. The way the pad is shaped, for instance. The way it deodorizes. The adjustability of the filler.

"There's one thing I don't under stand," thought Sammy, "and that is why that baby doesn't cry and let his father and mother know where he is. It seems queer to me that he keeps so still. I wonder if perhaps he was bad-ly hurt."

It was just after Sammy left-and der a little hemlock tree and there

It was just after Sammy left—and you may be sure that he took care to leave in such a way that he wouldn't be seen by the Owls—that Mrs. Hooty returned with more food for that baby in the nest. As usual, the greedy little rascal began to make a great fuss as soon as he saw his mother bringing him something to eat. Mrs. Hooty alighted close by the nest. She was just reaching to give the greedy baby what she had brought when she heard a sound that caused her to turn her nead and sit perfectly still. You know she has very wonderful ears. Dixie Seed Loan Bill Given Right of Way

V. ASHINGTON, Feb. 18 .- (A)-The house rules committee today unan-imously decided to give privileged status to the senate resolution to ap-propriate \$7,000,000 for seed and fer-

propriate \$7,000,000 for seed and fertilizer loans to farmers in stormstricken areas in the southeastern and several western states.

The measure is to be brought up soon for action by the house. The loan fund is to be made available for the purchase of seed and fertilizer to farmers in Alabama. Florida, Georgia: the Carolinas, Virginia, Ohio, Indiana, Illinois, Minnesota. North Dakota, Montana and New Mexico.

It was sponsored by members of the delegations of southeastern states, last year, and \$6,000,000 was made available, but m blers from western states obtained the approval of the agriculture committee to include a number of their states and increase the fund.

them an acid test of strength in the coming democratic senatorial primary and the November general election, in Senator Thomas J. Heflin's bid for re-election, Thomas E. Kilby, former governor of the state and party leader, said here today.

Senator Heflin, although barred from participation in the primary by party edict, may receive the votes of his friends if they rubber stamp his name on the ballot. Kilby said.

"I do not, however, believe he will be nominated in this way," he continued. "Senator Heflin, though, is a wonderful campaigner. He has a great way of getting next to the masses. He will be very dangerous to the party nominee."

Heflin's appeal hits "the boys up the creek," Kilby asserted, explaining that he always has been a minority nominee.

He foresaw a possible coalition between Heflinites and the republican party of Alabama as a menace to the democratic party in the senate race.

"If the republican party will indorse Heflin it will present a grave danger," he said.

Willebrandt Arrest Papers Are Missing

WASHINGTON, Feb. 18.—(UN) A Hawkshaw is needed. Amateur sleuths today were baffled, in the best mystery-story fashion, by the disappearance of the papers in which Mrs. Mabel Walker Willebrandt was charged with speeding at 38 miles an hour in her automobile.

Mrs. Willebrandt, who will be remembered as the chief justice department prohibition prosecutor up until recently, was practically missing, too, for she had "pressing engagements" to those who tried to solve the mystery of the missing papers.

The corporation counsel's office made out the charges after Policeman William B. Hopkins told of his capture of Mrs. Willebrandt following a five-block chase.

But Police Judge Ralph Given, who in the normal course would receive the charges, hasn't heard a thing or seen a paper.

Mrs. Willebrandt is a practicing lawyer herself, so she may plead her own case if and when she and the papers are brought together.

CRACKER-ROBIN ALLIANCE IS RENEWED

One tepid night last February, booming mob of people sat in a raw pine enclosure under the palm trees watching two pale young men struggling in the white glare of electric flood lights.

The two pale young men were struggling on a raised platform of pine boards covered with rosined

Along the four sides of the platform sat the great men of The platforms came up to their chins; their bodies were invisible. Now they bent over typewriters or talked sidewise to bored telegraph operators; now they squinted through the rosin dust that floated off the canvas into their faces as the two pale young men struggled about.

One of the pale young men was W. L. Stribling II; the other was Jack Sharkey. They were getting nowhere rapidly. It was the end of the eighth round.

The great minds of the press whose heads fringed the ring like cork floats around a life raft were muttering that nothing had happened and that furthermore nothing would happen.

The roar of the crowd also had changed in tone. Instead of an excited, enthusiastic tenor, it now was pitched in a minor down in the bass. The crowd, too, realized that nothing much had happened.

EASY TO FORGET.

Something had happened in the first round when Stribling hit Sharkey hard as the Boston boy leaned back on the ropes. Again in the fourth Stribling had knocked Sharkey's eyes glassy.

But neither punch had been followed up and the

crowd and the press had forgotten them. The only contribution Sharkey had made toward the evening's entertainment was by being present.

SO NEAR.

In the ninth, as the two young men struggled in the center of the ring, Stribling nailed Sharkey another one on the chin.

Sharkey teetered. Stribling stepped back to let Sharkey fall, but Sharkey remained upright. The bell ended the round.

Between rounds the great minds of the press manifested some interest. "If the kid can hold him even in the last round it is his fight . . . well, anyhow Stribling evened it up then . . . he will win unless he gets knocked out. . . Stribling will get the sailor this time . . . stand

And Sharkey, who up to this time had taken but a modest part in the fighting, came out milling and hit Stribling in the stomach very hard. The southerner nearly dropped, but hung on until his head cleared. And then the bell ended it.

then raised Sharkey's arm. Sharkey had been declard victor over Stribling on one real punch. The punch came at the right time. Everybody, including the referee, could remember it. But even in victory Sharkey had lost caste.

THE PET OF FATE.

Now that same Sharkey, who cannot possibly have improved as a boxer in a year of comparative idleness, soon will fight an almost helpless opponent for the right to fight later on for Gene Tunney's crown. Nobody but Phil Scott's manager.

And by winning Sharkey not only will collect a nice purse, but will be matched with Max Schmeling, of Germany, in New York in June for the heavyweight championship of the world and a share of a million dollar

And if reports from the European press are true, Schmeling is in no shape for a fight and certainly no match for the average American heavyweight.

Jack Sharkey, then, the man who scrambled and stumbled so unimpressively to a hairline victory over W. L. Stribling a year ago in Miami, looms as the next heavyweight champion of

MORAL-GET A MANAGER.

That is how queerly fate works and operates in the business

Fate, in this case, is impersonated by Johnny Buck-ley, the manager of Jack Sharkey, who will have jock-eyed his protege into the title without having taken a serious chance of defeat.

It is amazing that so many young men each year decide on the precarious fighting business as a profession. And decidedly ungrateful of them when they complain because the manager takes a large share of their earnings.

ANOTHER BIG CRASH.

It is wicked to gamble. Any man who had invested sums of money on the chances of Whichone and Boojum, the Whitney colts, in the Kentucky Derby winter books, will tell you that.

The two colts were declared out by their owner yesterday and sums wagered on them now belong to the bookmaker. They were the favorites, too, at 8 to 1 and 12 to 1, respectively, in Tom Kearney's list.

Tom now will be compelled to mail out to his clients a new list. He can afford to engrave his next list on expensive

Tiger Five Ends Season in Return Game With Tech.

By Herb Clark.

With a safe and easy victory over Auburn's Tigers already in the bag, Georgia Tech's Yellow Jacket basket-ball squad is slated to face those same Tigers in a return game tonight. The teams will meet on the Atlanta Auditorium court, with 8:30 o'clock

set as the starting time. Coach Mundorff's crew had all the best of the argument in Auburn Mon-day night. The Jackets led from start to finish, and always by a score which kept their brows free from signs of

worry.

Incidentally, that worry devoted exclusively to the possibilities of tournament eligibility have been erased. The Jackets, by their victory, jumped up to fifteenth place in the standings. Add to that the fact that Florida is ineligible because the 'Gators have not and will not play eight conference games; the fact that it is probable, on past form, that at least one of the teams invited to play will refuse the invitation, and that the Jackets have a good chance to win another game to boost their standing still more, and the result is a care-free attitude.

REPETITION.

_ REPETITION. The Jackets, trimming the Tigers on their own court Monday, should find it easy to repeat on the auditorium floor. The Jackets themselves are none too well acquainted with the vagaries of the trick court, but even at that it is more "home" to them than to the Plainsmen.

than to the Plainsmen.

The repeat, if any, will send their percentage to a new high of .417. The Jackets have not been that high since the night before the first Georgia game, when they fell from .500 to .333.

The second Georgia game also produced a bear market in Tech stock. It may be that the third, be played on the auditorium floor Saturday night, will be the one for .e. Jackets. They are ordinally due to take at least one game of the series with the Bulldogs, but it is not yet ripe for the taking.

DUE. Any way the and are juggled, however, the Jackets are due to be in the list of tournament entries. Too, it would be impossible for the most adept mathematician to ease the Jackets in anywhere but low in the second

at the Tech gym.

Coach Hal Lee and eight players will leave Wednesday morning at 10:19 for the Flats. The Tigers will a accompanied to Atlanta by the Orange and Blue yearlings, who also play a return contest and climax their current schedule, as they encounter Bill Fincher's Baby Jackets Wednesday afternoon at the Tech gymnasium.

The final game on schedule for the Plainsmen is expected to be a hard-fought tilt. The initial meeting of the two teams in Auburn Monday night resulted in one of the most bitterly fought games played in alumning manasium in some time. The tilt at the auditorium is expected to be packed full of thrills, as the Leemen will be out to end their season in glory, while the Mundorff five will he just as anxious to add another.

Atlanta will have first call at any surplus Brooklyn talent again this year, the two clubs having agreed to resume the agreement that has been in force for the past two seasons.

A communication from Your Uncle Wilbert Robinson, manager of the Robins, was received at the Cracker office yesterday afternoon in which he advised that Brooklyn would have several good players this spring who might be of help to the Crackers.

Your Uncle Wilbert, who recently resigned as president of the Brooklyn ball club to take a two-year contract as manager, asked that the Cracker office make arrangements with Frank B. York, the new president of the Brooklyn club, regarding the agreement.

SETTLED.

"Chip Robert and I have already taken the matter up with Mr. York," said R. J. Spiller, business manager of the club, "and everything is all set now that we have this letter from Robbic. H: has always felt very close to the Atlanta club, and the only reason he was not able to help us more in the past was because of conditions at Brooklyn. Now that peace has .een declared he is in a better position to help. Mr. York is a fine man also and is friendly to the club."

Cracker officials made it plain that they did not expect to be in need of much help. They feel that they have a club which will go along without cracking. Still, the agreement with Brooklyn-will be an asset not lightly

Manager Robinson, in his letter of Manager Robinson, in his letter of yesterday, said that he expected to have a good team this season. The Robins have already spent some serious money in purchasing two infielders. Other deals are in prospect. All this will mean that the Robins will have surplus talent. Your Uncle Wilbert pointed this out in his letter. "I know I will have some players you will want if any of yours fail to come through," he wrote.

NO DEALS. The Crackers have no deals in prospect with Brooklyn. The clubs will go on to their camps and any deals will come later, probably at the time the Crackers and Robins play an exhibition game series in Atlanta.

SCARCITY.

Meanwhile the mail carriers are not getting hump-shouldered carrying contracts to the Czacker office. Not at all. Oh, no. Instead their step is light and free. They bring the office bids on paint jobs, requests for jobs from old ball players and that sort of thing. But no contracts.

Chick Roos, secretary, said that no contracts were received yesterday. To date Milt Stock, infielder, and Elton (Sam) Langford, outfielder, are the only accepted regulars who have sent in their signed contracts. A spirit of optimism prevails, however, and the "All Is Well" signal flies from the halyard at the Cracker office. They hope, however, that today will bring in some contracts.

BRUCE CALDWELL FOR KEYSTONE

Several Other Collegians Adorn List of Cleveland Club.

By Walter Trumbull.

NEW YORK, Feb. 18.—How much the higher education benefits one who adopts baseball as his profession is still a question. Little Josh Devore was of the opinion that it was of no benefit whatever.

In a world's series between the Athletics and the Giants, Chief Ben-Athletics and the Giants, Chief Ben-der, of Carlisle, not only was mowing the New York batters down, but was kidding them into the bargain. Devore decided to get the Chief's goat, being unable to get a hit off him. Coming in from the field Josh passed Bender and stopped to make conversation. The chief walked to the box grinning and Devore came to the bench wearing an expression that denoted great dissatis-faction.

"IZZAT SO?"

"I call that Indian everything I can think of, and what do you think he says?" demanded Josh, heatedly. "He says, 'Is that so?' Now affi't that a hell of a comeback for a college.

guy?"

Well, Latin and Greek do not appear to help much on the diamond, although the pitchers do use English on the ball. And about the only mathematics needed would appear to be knowledge of such digits as three and nine. Nevertheless, more and more college men seem to be making baseball their life work. Many of these men were known at college for other sports.

EXAMPLE. EXAMPLE.

There, for example, is Bruce Caldwell, recalled by Cleveland from the New Haven club where he burned up the Eastern league with his hitting, making 28 doubles, 10 triples and 41 home runs and finishing the season with an average of .359. Caldwell is no stranger to New Haven, The inhabitants of that city once watched him play second base for Yale, and inhabitants of almost every city saw him play football. Tad Jones once said that Bruce Caldwell was the best back he ever coached.

But Caldwell is by no means the

But Caldwell is by no means the only star of college athletics who will go south with Cleveland. There is Alex Hooks, of Southern Methodist, where he twice won his letter in four sports, football, baseball, basketball and track. Last season Hooks played first base for Decatur and hit 19 triples.

and track. Last season floods physed first base for Decatur and hit 19 triples.

The Indians have another four-letter man in Zeke Bonura, the infielder purchased from New Orleans. Bonura was graduated from St. Stanislaus college and captained the track, baseball, football and basketball teams, which must mean that he was such an excellent student that he didn't have to spend all his time getting his lessons. John Burnett, also drawn from the New Orleans club, played baseball and football at the University of Florida. George Detore, who came with Hooks from Decatur, played baseball, football and basketball at Colgate.

The New York Yankees also are taking some college stars south. Foster Edwards, during his four years at Dartmouth, went in for football, base ball, basketball and track, besides doing a doit of swimming and playing a little tennis. He was a champion pole vaulter. Edwards signed with the Boston Braves, but had a sore arm. The Braves released him and he signed with the Yanks as a free agent, as did Fred Asbeck, who played baseball and football at Michigan.

The Chicago White Sox purchased Irvine Franklin Jeffries from Dallas, Jeffries went to the University of Kentucky, where he was a good balf-take the process of the process of the catcher. At the receiving end of every pitched ball, he has opportunity to be more critical than any of his eight teams, which must ream, and turbulence. It is because he is a constant witness of split-hair decisions on balls and strikes.

While calmness is a vital asset to the catcher, there are times when exceptions prove the rule. Sam Agnew, once a catcher with the St. Louis Browns, decided he could step in and remodel the umpire's job. Agnew announced this one day after accusing the umpire of giving a lop-sided decision on a close play at the plate. He was promptly dismissed from the game.

When the game was over Agnew was still in a rage about the decision. Branch Rickey, then manager of the growns, tried to console Agnew, but finding this futile he went to the othe

Irvine Franklin Jeffries from Dallas. Jeffries went to the University of Kentucky, where he was a good halfback. He was even better at basketball than at football. Huey James Harmon, obtained by the Boston Red Sox from Mobile, played football, baseball and basketball at Sherman college in Texas. Zeke Bonura, in a college track meet in California, tossed the javelin 213 feet, 101-2 inches, breaking the American record. He should be able to throw a baseball from first to third, or from third to first, as the case may be. Like Jimmy Foxx, Zeke can play either corner, and probably the saxophone besides. He is an accomplished young man.

Other recruits who once graced seats of learning and who soon will be in the south at major league camps are John Winsett, of Bethel college; James Moore, of Union University in Tennessee; Gerald Byrne, of Michigan: State; Cecil Stewart, of Alabama S

On the other hand, even as great a player as Vinnie Richards never was certain, in his amateur days, to get that first serve in court.

John Doeg might like such a new John Doeg might like such a new rule, but there are many who would not. Man; a player, whose service is neither severe nor dependable, would be afraid at a critical moment to try to put much on the ball. On the average, and with all except the most expert players, such a rule would tend to make the service softer—and with the average player the service is soft enough now

POPULARITY.

Admitting that a limit of one serve might be all right for the expert, no game can be widely popular unless it also is fun for the fair player and for the great army of duffers. it also is fun for the fair player and for the great army of duffers.

Just as the dub golfer likes to sock the ball off the tee, so the dub tennis player likes to hit that first serve in what he imagines is a direct imitation of Tilden. It is true that the ball insually either hits the backline or goes in the net. What of it? The dub feels that he has made a noble gesture an! pats his second serve over with the unbroken faith that some day that first ball will go in. Some day it does go in. After that the dub is always "off form" on his service.

But it would seem that a service limit might even change the game for the best players. It would tend to make the game a bit more cautious. It would probably make it a little more like women's tennis; not that many a little woman can't make a big strong man look silly on the courts. But one of the chief differences between the height of men's and women's tennis is the serve.

The reason tennis is such a great

The reason tennis is such a great game to witness is that it is, expertly game to witness is that it is, expertly played, such a savage, stamina-eating, speedy form of sport. The safe game, which depends for results on an opponent making an error, is no more exciting to watch than the football team which depends upon a good defense and getting the breaks, or the fighter who taps, clinches, covers and holds.

DISCOURAGING.

A rule which discourages taking chances or which slows up play, not perhaps in time, but in action, is not such a good rule. How many home runs would Babe Ruth make if they limited him to one strike?

It is not the well-placed single, or the tapping left jab, or the nice foot-ball defense, or the dribble at polo or hockey which builds and fills sta-diums. The fans today want a Ruth or Dempsey; a Grange or Milburn; a Tilden or Shore. They want the punch. It is this desire on the part of the public which will render eloquence extraordinary so necessary, when Col-onel Ruppert goes south to persuade the Babe that money isn't everything.

State Teachers Hold Field Day

ATHENS Co Feb 18 -Tuesd was declared a holiday at Georgia State Teachers' college, the occasion being the second field day of the year. The freshman class tied for honors with the junior-seniors.

Circle ball was won by the seniors after defeating both the fresh ofher formidable G. I. A. A. teams, also must be placed in the position of a possible winner.

Two other quintets which have their eyes on the bunting are the Monroe Aggies and the Riverside Cadets. In a recent battle Riverside took the verdict, 31-29, after an overtime period.

CUBS LEAVE HOME.

CHICAGO, Feb. 18.—(AP)—The first official delegation of chicago's National league champion Cubs—Mapager Joe McCarthy, eight players and others connected with the club—tonight were speeding westward toward catalina island to prepare for their quest for another title. Manager McCarthy was particularly enthusiastic over prospects for another great season. A small but noisy crowd watched the getaway.

With McCarthy were Pitchers Al Shealy, Henry Grampf, Bill McAfee, Hal Carlson and Eddie Lauteubacher; Catchers Gabby Hartnett and Zack Taylor, and Outfielder Cliff Heathcote. Traveling secretary Bob Lewis, Coach Ray Schalk and Trainer Andy player it would seem to benefit. Tilden is fairly sure of getting that cannonball service in when he desires. at the Druid Hills Golb Club.

The 16 low scorers in this medal round will be paired in the championship flight of the tourney, and the four semi-finalists will compose the team which will represent Emory in the dual meets and the state meet. The four best freshmen linksmen will also be selected, and will make up the team that will play the two Emory junior colleges at Valdosta and Oxford on Junior College day, to be held at Emory in April.

The varsity team from last year

The varsity team from last year will return entirely with the exception of Julius Hughes, the number one golfer on the 1929 squad. Allan Ford is the captain-elect of this year's team and the other two letter men are Pup Gordon and C. O. Murphey. Thus there is only one place left open on the varsity if the three regulars run true to form.

After the qualifying round of 18 holes medal play, the men who qualify will play 18-hole matches until the final, which will be two rounds, totaling 36 holes.

Where Are the Reserves?

Football coaches now in the midst of spring training or preparing to start the same at an early date, are casting anxious eyes in the direction of their reserve strength.

This means everything where a hard schedule is concerned. It helped to explain last season the nine-game sweep of Notre Dame and the crushing victories of Stanford and Southern California over the Army and Pittsburgh. Although in the latter case Pittsburgh was overwhelmed by the forward pass before reserves counted to any great extent, It was lack of reserve strength that cost both Georgia and Georgia Tech so heavily last fall. These two teams faced killing schedules. Georgia had to look after eight hard games within nine Saturdays—Oglethorpe, Yale, North Carolina (one of the best teams in the country), Florida, Tulane, N. Y. U., Alabama and Georgia Tech. Tech had to tackle seven hard games without a break—North Carolina, Florida, Tulane, Notre Dame, Vanderbilt, Alabama and then Georgia on the closing date.

Schedules of this type demanded an almost unlimited supply of reserves. Notre Dame, Stanford and Southern California had practically three teams to call on—from thirty to thirty-five men, all of high-class caliber. Georgia and Georgia Tech had no such reserve strength, no such unlimited supply of manpower. Georgia at its best had as fine football team—but after it had beaten Yale and North Carolina in succession it lacked the reserve power to keep on moving from one hard game to another. Men were hurt or battered or worn down and there were few replacements to fill the gaps. Once a team is started down hill with a flock of tough battles to face, there is little chance to get set again. A team that plays only three of four hard games doesn't need any great amount of surplus power. But a team that plays from six to eight ranking contests needs a bundle of manpower to make the grade. Back Home at Last.

Knute Rockne is all keyed up at the thought of being able to show his football team to the students of Notre Dame after a long wait. His teams have played a few big games at South Bend, but only a few, as the new stadium had not been completed. The team's main supporters had to get most of the season's glory from newspapers and the radio. Now Notre Dame students can see the bunch in action at close range. Of the ten games booked by Notre Dame next fall, five will be played in the South Bend stadium, and all five will be important contests. Two of the first will be Southern Methodist and the Navy. Just how good the Navy will be is still something of a guess, but there is no guessing about Ray Morrison's S. M. U. outfit that will come along with one of the best teams from the southwest, where they happen to play more football than many people know about.

M. U. had a green lineup last year, a green squad that got better and better as the season advanced, and most of this same outfit will be back. You can put it down this far in advance that beating Notre Dame on her own field will be something of a job. The same goes for any other

A reader wishes to know whether or not the proposed meeting of Carnera and Campolo will set a record for tonnage or displacement in

one fight. It ought to. Carnera would go in around 275. Campolo around 225. That would leave the massed total at 500 pounds.

Some years ago Willard and Carl Morris set a new poundage record at 480. Willard weighed 245 that night and Morris tilted thme scales at 235. It seemed almost impossible at the time that any fight would ever surpass this massed amount of human flesh and bone, placing the accent where you care to. Carnera and Compolo will step beyond it. They will also break the combined altitude record. Willard was 6 feet 7 and Morris was around 6 feet 4. That meant a high level of 12 feet 11 inches. The average was close to six and one-half feet. Carnera is 6 feet 10 and Campolo is 6 feet 5. That means a total of 13 feet 3 inches.

Just how many pounds or ounces of actual fighting will take place another argument. But in these piping days and times that part of it seems to be an unimportant detail.

Billiard Veteran Plans Comeback

Another famous billiardist is about to come out of retirement. Stirred by the announcement that George B. Sultino, holder of the world's 18.2 balkline crown in 1908, had filed his entry for title tourneys, George F. Slosson, of Boston, also a former world's 18.2 champion, has decided that the man he wants to play is none other than George Butler Sutton.

Sutton has one advantage, that of youth, in this proposed struggle between veterans. Sutton now is 66 but Slosson will be 76 on March 5. Slosson, whose tournament career started in 1873, played billiards long before balkline was thought of. He won the first world's 18.2 tourney ever played in the United States, which was staged in New York. Slosson saw action the last time in he 1919 world's tourney in New York. Slosson, in a letter to John Hemmer, editor of the Billiard Magazine, wrote:

SCHENECTADY, N. Y., Feb. 18.-(A)-For the first time in history, according to officials of the General Electric Company here, a television signal was transmitted over a distance

The experiment was conducted by Dr. E. F. W. Alexanderson, staff scientist of the General Electric, who reignified the signal from W2XAF, short short

transmitted the signal from W2XAF, the company's experimental short wave station, to VK2ME at Sydney, Australia. The signal was received in Australia and re-broadcast, being picked up again at Schenectady.

A rectangular pattern, about one foot square, was the figure transmitted. The original pattern had very sharp outlines, but the image received after traveling 20,000 miles was said to be "fuzzy" in outline." Dr. Alexanderson declared, however, that reception of the image at all was significant as intimating further possibilities in the transmission of pictures.

Dr. Young Urges Treatment in Early Stages.

Three-fourths of all mental cases in this country could have been prevented had they been reached with the proper kind of treatment during incipiency, Dr. W. W. Young, assistant professor in psychiatry at Emory University, declared in a talk before the Atlanta Kiwanis Club at the Ansley hotel Tuesday.

Atlanta Rivans hotel Tuesday.

One person in every 25, Dr. Young said, either is or will be "mentally sick" and the resultant economic loss to the country is about 10 times what it would be if the subjects were treating.

The program was in charge of Past President John Westmoreland with Harry Heinz, past international presattending and outlining plans ne entertainment of Horace Mc-l, international president, who David, international president, will be in Atlanta next Tuesday.

World War Veterans Are Urged To Vote

Disabled veterans of the World War were urged Tuesday by William E. Tate, former national commander of the organization, to make their strength felt by paying poll taxes and exercising their suffrage at the polls. The Atlanta branch plans to make a big membership report at the New Orleans convention and to take the local drum and bugle corps.

The sales department of the Georgia Power Company closed a two-day conference at the Biltmore hotel Tuesday night with a banquet at which approximately 400 officials and representatives of the company were in attendance.

President Preston S. Arkwright and W. E. Mitchell, vice president and general manager, made talks. The Rome division, of which P. S. Sloan is manager, was awarded the cup for the best record of the year.

Officials of the company announced that it made a national record last year in the sale of electric refrigerators, selling—in a limited campaign—more than any other public utility concern in the United States.

By Edgar Rice Burroughs

Two more days the men rode with their fair prize until the girl saw the Arab tents on the yellow desert sands. Vaguely it all seemed strangely familiar to her as with shouts of greetings the wild youths led Meriem directly into the presence of a tall grim old fellow who glared down upon her from the folds of his burnose. All the fears and terrors of her childhood returned as Meriem stood before the Sheik and knew that he recognized her.

"AIR POCKETS"

LAST WEEK a piece of property was suddenly offered to a member firm at slightly more than half its former established price. In addition to a satisfactory income, it had a sound speculative value. Less than 5% of its value was required in cash. It was sold in 24 hours to a man who had intimated an interest in such a buy. If it were for re-sale, any broker would be glad to handle it at an advance of 33 1-3%. These "AIR POCKETS" do not occur every day. But as the market continues to clear there will inevitably be others. Have YOU wondered why YOU never hear of these pick-ups until they're gone? TRY THIS ONCE: Tell any good Realtor to give you a ring the first time anything unusually good breaks-or better still, tell two or

DO you realize why the Apartment Building is the most promising investment of the day?

WHY? Because the high cost of buying and maintaining the average home, together with the high cost of living, has got beyond the reach of the average home buyers. Therefore, the moderate priced apartment is in greater demand than ever before and we believe will be in still greater demand as time passes on. Financial reason has caused us to offer to you two of the best located, best built Apartment buildings in the city. These buildings are practically new and 100% rented and we believe rented at least 15% under the market, priced to pay you more than 22% on this low rental.

THE SON OF TARZAN No. 75

A full day's march shead of the Big Bwans who trailed them hour by hour, five young Arabs were returning homeward to the tribe the Sheik ruled. They had been far inland on a successful ivory raid. A handsome, sinister youth rode at their head when they sighted some fleeing object in the distance. Perhaps it was a lost hunter! Thinking slways of possible ransom money, Abdul Kamak put spurs to his horse and rode toward it.

Candler field Tuesday with a new Challenger Robin to be added to the local branch's complement of ships for cross-country work and brief hops about the airport. Lee Sanders, divisional S. A. T. manager here, is to fly to Anniston today to select a man to take charge of the company's weather representing station at that points. to take charge of the company's weather reporting station at that point, where an emergency field on the Atlanta-New Orleans air mail route of Gulf Airways is located. Sanders either will fly with the mail at daybreak this morning or will be carried ever later in the day by Frank Estill in a Robin.

Johnny Gill, an executive of the new Dayis Airlines, which Saturday began operation of a passenger and express line between Atlanta and Birmingham, via Anniston, said Tuesday that the line, thus far, has enjoyed a most gratifying patronage. For the first four days of operations, ending Tuesday, a 'otal of 35 passengers were carried, Gill stated. Tuesday afternoon, he added, the company experienced its first "overflow," several prospective passengers being unable to find seats for the return trip to Birmingham. The company is using six-place Travel Air monoplanes, powered with a J-6 Whirlwind "nine" of 300 horsepower.

An outside loop with a plane carrying a passenger was performed Tuesday at the St. Louis air show for the first time in aerobatic history. Phil Love, well-known St. Louis flier, accomplished the feat when he successfully completed three outside loops with Eugene Stevens, of Tallulah, La. The pair, classmates once in the army flying school at Kelly Field, Texas, took off unannounced from Lambert field and performed the unprecedented feat before a small group of visitors in St. Louis for the International Aircraft Exposition.

It was reported from St. Louis that harles "Speed" Holman, stunt flier Judge Webb was born in Milton Charles "Speed" Holman, stunt flier and first man to fly a Ford tri-motored monoplane in inverted flight, today will attempt a new record for outside loops, unaccompanied. A new automatic pilot was successfully tested when C. P. Oleson and Otto Green, inventor, of Elyria, Ohio, flew to St. Louis from Chicago without touching the controls once in the flight except for taking off and landing. The de-vice, known as "Guardianair," is an

of taking off and landing. The device, known as "Guardianair," is an electrical apparatus and differs from the Sperry "Mechaviator," recently tested by the army air corps.

Pilots of National Air Transport have tested the device and it was flown last week on a flight from Cleveland to Chicago. Greene, who has been developing the mechanical pilot over a period of 10 years, explained that it is only necessary to set the course and altitude on taking off and an airplane will rise to the selected height, level off, and continue on a straight course.

When Mr. Webb was old enough to enlist in the Confederate cause, he joined Company A, Fifth Georgia cavalry, and was assigned to special service as courier for General Joseph Wheeler. He served with distinction until the end of the war. Since the war has been active in civic and political affairs and a leader among the Confederate veterans.

He represented his home county in the state legislature and upon moving to Gwinnett county, was elected ordinary, holding the county office for 12 service as courier for General Joseph Wheeler. He represented his home county in the county of the state legislature and upon moving to Gwinnett county, was elected ordinary, holding the county office for 12 service as courier for General Joseph Wheeler. He served with distinction on a straight course.

Defying aviation tradition, Henry "Buddy" Bushmeyer, parachute instructor at Roosevelt Field, New structor at Roosevelt Field, New York, recently wade a 2,000-foot jump from a plane with a dead man's parachute. The parachute was the one used by Elliott DeLisser, student flyer, who was killed February 6 at East Meadow, L. I., when he leaped from a diving plane. Bushmeyer used the parachute in a test for District Attorney Edwards of Nassau county, who is investigating DeLisser's death. Bushmeyer said the parachute was in perfect condition. DeLisser had leaped from his plane at an altitude of 125 feet. Bushmeyer said that had the student pilot jumped when the plane was 50 feet higher, the parachute undoubtedly would have opened.

Lawrenceville Veteran Served as Superintendent Since

CHICAGO, Feb. 18.—(P)—Judge John P. McGoorty, in criminal court late today, granted a subpoena duces tecum to the state attorney's office for the records of U. S. A. Company, electrical contractors. The state seeks the records for use in its new grand jury investigation into affairs of the sanitary district of Chicago.

In seeking the records, the state charged in its petition asking for the subpoena that George L. Chamberlain, president of the U. S. A. Company, had withdrawn \$1,000,000 from the firm's funds and used it as part of a huge fund to bribe public officials. surviving wearers of the gray at the Confederate Soldiers' Home have lost their leader, Judge John Pinckney Webb passing away at 1 o'clock Tuesday morning. Judge Webb, pio-

cials.

The U. S. A. Company did considerable business for the sanitary district during the years which brought forth much alleged corruption, among its contracts having been that for the lighting of McCormick road. The lights, it was testified at a previous inquiry, cost the district \$1,000 a unit.

Devotion of Mother Sends Her to Death

PORT HENRY, N. Y., Feb. 18.-(P)—The devotion of a wife and mother sent a woman back into her blazing home today to lose her life beside her husband and her son in a fire which destroyed a two-family

fire which destroyed a two-family house here today.

All three members of the family were burned to death. They were Thomas Collier, 69; Mrs. Collier, 65, and their son, Thomas Collier, 1r., 23. Mr. and Mrs. Walter Green, living in the other part of the house, escaped. Green discovered the fire first and notified firemen. While waiting for their arrival he saw Mrs. Collier run from the house and attempted to dissuade her from going back. He was unable to restrain her and she rushe! through the flames into the building which had become a veritable furnace in an attempt to rescue

Coolidge Completes Two-Fifths of History

CHICAGO, Feb. 18 .- (A)-The first two chapters of former President Coolidge's history of the United States in 500 words will be submitted to the ounty, near Alpharetta, on August 30, 1846, and for the past 35 years has been a citizen of Lawrenceville. Since his appointment as superintendent of the Confederate Soldiers' Home, he and his wife have lived at the institution. The end came early Tuesday morning after he had been seriously ill at the home for about two weeks.

When Mr. Webb was old enough in 500 words will be submitted to the publishers May 1.

Mr. Coolidge advised Gutzon Borglum, one of the "publishers." or to be more exact, the "pressman," that the cantos dealing with Washington and Jefferson would be completed by the end of April, Borglum informed his office here.

Mr. Coolidge's history is to be engraved on the face of Mt. Rushmore

office here.

Mr. Coolidge's history is to be engraved on the face of Mt. Rushmore in South Dakota, and will become a nn south Dakota, and win become a part of the national memorial under construction there. Borglum, the sculptor, is supervising the work. Colossal figures of Washington, Jef-ferson, Lincoln and Roosevelt will be hewn from the rock of the 1,000-foot

mountain.

The Mt. Rushmore commission, "publishers" of the Coolidge history, have been advised that normal erosion would not remove the huge letters of the text for 5,000 centuries.

Great Britain Running Short On Criminals

LONDON, Feb. 18 .- (P)-Britain's criminal class seems to be traveling on the road which leads to gradual extinction. While the criminal "dole," as the prisoners' appropriation might be termed is decreasing, the government today finds itself embarrassed by too many prisons and military barracks.

Maidstone jail, which is to be closed hortly, is the twenty-seventh institution of its kind to disappear since 1914. Since that year-memorable as the outbreak of the war-the prison

population of the United Kingdon bas declined by 70 per cent.

The surplus of military barracks arises partly from reduction of the forces and partly because the scheme of army organization today calls for the concentration of troops in definite training areas rather than their hous-ing in different parts of the country. It is doubtfu! if the great Sheffield barracks will ever be occupied again, that is, unless there should arise emergency conditions.

Like many similar institutions the Sheffield barracks were built about the time when industrialism, still a

the time when industrialism, still a new phase, was growing to its full strength in the north of England. Such barracks, for the most part, are veritable fortresses designed then with the idea of providing refuge in time of civil disturbance.

The suggestion has been made in parliament that London's two principal prisons—Wandsworth and Pentonville—should be razed and housing areas for the working class substituted.
